MACHINES THAT PERFORM

REMAIN OPERATIONAL AT ALL TIMES WITH
GENIE® SERVICE SOLUTIONS

Annual
Health Check

Preventative
Maintenance

Reactive
Maintenance

TAKING YOU **HIGHER**™

SERVICE DEPLOYMENT

Our main objective is to minimise operational cost (risk) and increase uptime. To achieve this, we have developed a simple process to minimise the impact on our customers 'core' business activities.

Annual Inspection and Operational Health Check

To ensure minimal impact on your business, the key stakeholders will undertake the necessary health, safety and operational preparation.

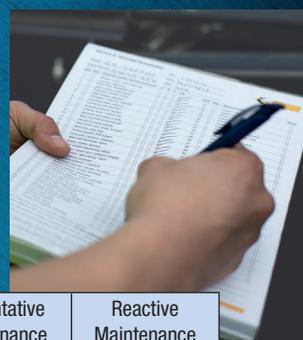

Preventative Maintenance

For those machines with an agreement in place, minor repairs can be covered within the agreement. This enables us to efficiently keep the machines available for rental and reduces the complexity in the supply chain and administration.

Reactive Maintenance

We are here and at your service to offer breakdown and field support for your machines when required. Our field service technicians are comprehensively trained to ensure that we have the right people, process and tools in the right place at the right time.

SERVICE OFFERING

Item	Annual Inspection Health Check	Preventative Maintenance	Reactive Maintenance
