

The Genie® Certified Pre-Owned program is an innovative way for you to better manage your fleet, enabling you to economically maintain a blended fleet of older and new equipment to meet the changing demands of your customers.

By providing factory-approved used equipment at a percentage of the original equipment cost, Genie is able to improve your return on invested capital, as well as drive the residual values of your Genie equipment fleet up. It's a smart, cost-effective fleet management solution.

The Genie Certified Pre-Owned Program Includes:

1. Genie Certified Reconditioned Equipment

Genie Certified Recondition Equipment is 6-11 years of age and have been reconditioned to original machine specifications at one of our three certification centers in the United States.

36-month warranty on all components reconditioned by Genie

2. Genie Certified Used Equipment

Genie Certified Used Equipment is 3-6 years of age and have undergone a full annual inspection, safety checks and minor cosmetic improvements.

24-month limited warranty
