Range of motion S-45 XC/S-45 TraX

O_{T-6}

(1) The metric equivalent of working height adds 2 m to platform height. The imperial equivalent adds 6 ft to platform height. (2) Gradeability applies to driving on slopes and may vary depending on options and machine configurations. See operator's manual

for details regarding slope ratings.

Sound Pressure level (platform workstation)

(3) Weight refers to standard configuration and may vary depending on options and/or country standards.

(4) Floor loading information is approximate and may vary depending on options and machine configurations. It should be used only with adequate safety factors.
