BE MORE EFFICIENT WHEN WORKING AT HEIGHT

The new Genie® Lift Tools™ Expo Installer allows for precise, easy placement of signs, banners and hanging décor. This new accessory helps to maximize safe productivity while operating Genie booms.

The Genie Lift Tools Expo Installer is an indoor-use only aftermarket accessory, available through Genie Genuine Parts, designed for mid-sized 1.83 m (6 ft) and 2.44 m (8 ft) articulating and telescopic boom platforms.

This new accessory is approved for use with Genie models:

- Z®-45/25J, Z-45/25 RT, Z-45/25J RT, Z-45 XC™, Z-51/30J RT, Z-60 DC, Z-60 FE, Z-62/40.

- S®-40, S-45, S-60 and S-65.

More compatible products to follow soon.

You can order this accessory by visiting gogenielift.com:

- For 1.83 m (6 ft) platform: Part Nr 1286618GT

- For 2.44 m (8 ft) platform: Part Nr 1288803GT

Certified globally, the Genie Lift Tools Expo Installer is available in EMEAR since June 2019.

HOW DOES IT WORK?

- **For fast setup and removal, the Genie Lift Tools Expo Installer can be attached to a boom platform by one person quickly and easily in about five minutes.**
- **It boasts a sliding track design with two trolleys that can carry a combined capacity of up to 113 kg (250 lb) for use with various rigging types.**
- **When lifting to height, brake pads secure the trolleys from sliding when the machine is in motion.**
- **For indoor use only, it is ideal in convention centers, arenas, malls, theaters and other locations with banners, signs and hanging décor.**
