Increase Your Productivity

A variety of accessories are available to help maximize safe productivity while operating Genie® equipment. It pays to understand what’s available so you can set yourself apart. In fact, you count on a selection of practical, adaptable accessories because they are critical – sometimes required – on certain jobsites. Consider what Genie has to offer.

*Lift Tools™ Material Carrier*
Genie® Boom Lift Accessories

Our commitment doesn’t end when you purchase a boom. We offer accessories that add to the quality you receive when you choose Genie.

Tech Pro™ Link

Allows users to monitor a machine’s gauges, including engine temperature, oil pressure, fuel levels and battery voltage, calibrate the machine, make speed adjustments during pre-operation inspection, get service alerts and reminders, track maintenance intervals, receive fault code information and so much more – all from the palm of your technician’s hand.

Available on:

Compatible for use with the CAN-enabled control systems on mid-sized Genie S® telescopic Xtra Capacity™ (XC™) booms

Part number:
• 1276686GT

Auxiliary Rail

The auxiliary top rail platform accessory is an additional railing system that can be quickly and easily mounted on the outside of a Genie boom’s standard platform rails. This railing system adds an extra measure of security for the operator when working at height.

Available on:

Genie® Articulating Boom Lifts:

Genie Telescopic Boom Lifts:
S®-40/45 XC, S-60/65 XC, S-80/85 XC, SX™-105 XC, SX-125 XC, SX-135 XC

Lift Tools™ Panel Cradle

For use lifting drywall, glass panes, plywood and other material that comes in panels up to 250 lb (113.4 kg). ### Contact Alarm
Engineered as an electronic secondary guarding system, the Genie® Lift Guard™ Contact Alarm System is designed to stop boom functions and alert ground personnel when an operator makes contact with the activation cable.
